Aarnav Singh

Software Engineer | System Engineer at Infosys
Bengaluru

Summary

Aspiring software developer with good knowledge of various programming languages, data structures and algorithms. I was always interested in solving interesting problems and so Computer Science was a natural choice for me. I am looking to improve myself as a developer and be a productive member of the community.

Experience

Infosys
System Engineer
August 2019 - Present (1 year 1 month)
Bangalore

Worked on Infosys Migration Platform.

Designed the frontend (Angular 9+) and worked on the backend (Spring) to create an application that facilitated automatic code migration from legacy to newer technologies using a custom-built compiler.

Automated migration projects for clients, including Verizon, Citibank and Southwest Gas, reducing manual work by 60%, and increasing time to production.

Infosys
System Engineer Intern
March 2019 - June 2019 (4 months)
Mysore, Karnataka, India

Education

SRM University
BTech - Bachelor of Technology, Computer Science · (2015 - 2019)

Delhi Public School, Sushant Lok
12th, PCM · (2009 - 2015)
