## Experience

Google Summer of Code  
Software Developer  
May 2020 - Present (4 months)

Open source contributor to Postmanlabs for Google Summer of Code 2020

Computer Society of India, Mumbai Chapter  
Technical Lead  
July 2019 - Present (1 year 2 months)  
Mumbai Area, India

Formed in 1965, the CSI has been instrumental in guiding the Indian IT industry down the right path since its formative years. Today, the CSI has 72 chapters all over India, 511 student branches, and more than 100000 members including India's most famous IT industry leaders, brilliant scientists and dedicated academicians.

I am currently the Co-Technical Head of the CSI-RAIT which is my college's primary technical committee. I have been successful in building <https://perfest.co>

Perfest, is a portal for college students to get the latest updates on happening events and college fests around them. We aimed to create something that would be helpful for not only the users of the portal, but also to the organizers and volunteers of the fests too. This was done with a stats portal with the projections of people that could attend the fest based on current trends. We also gave them a simple portal where they can add events, assign volunteers and issue tickets for cash transactions and get updates in real time.

I lead a team of developers and designers to build this product and we managed to get around 5,000 users in just a matter of 15 days. My other responsibilities as the technical head include starting a coding hub for our college, hosting multiple technical events, and organising multiple workshops.

Andy InfoSec  
Security Researcher

January 2020 - April 2020 (4 months)

Pune Area, India

Ramrao Adik Institute of Technology

Full Stack Engineer & Security Mentor

January 2019 - April 2019 (4 months)
