Re: Hinata et al.: Novel telementoring system for robot-assisted radical prostatectomy: impact on the learning curve. (Urology 2014;83:1088-92).

In patients with post-sternotomy mediastinitis is vacuum-assisted closure superior to conventional therapy?

On-demand three-dimensional printing of surgical supplies in conflict zones.

Three-dimensional printing in urological surgery: what are the possibilities?

Angela Yu

Founder & CTO | NHS Doctor | International Speaker | Teaching 550,000 students how to code
